

Let East End Hearing give your Grandma and Grandpa their hearing back!

Grandparents Day is September 7th

In honor of the pillars of our families, we will be offering free hearing screenings throughout the month of September.

At East End Hearing, we believe that grandparents shouldn't:

- 👂 miss out on precious moments of their lives due to inability to clearly understand their grandchildren's voices.
- 👂 feel apprehensive about putting their grandchildren's safety at risk, as a result of missing to hear a warning signal, a door opening, or a cry from another part of the house.
- 👂 be stressed from straining to hear others, or be embarrassed after misunderstanding what is said at a long awaited social event.
- 👂 suffer from falling and/or balance problems associated with lack of awareness of the environment around them, as a result of untreated hearing loss.

We know that better hearing leads to better quality of life...

Please call to schedule an appointment for a free hearing screening with one of our licensed audiologists today.

(631) 331-6455

**In addition to the hearing screening, and counseling regarding treatment options if appropriate, grandparents will receive a *special gift* upon visit arrival!*
